## Global Affairs (RG25)

<b>LAC FA:</b> 25-5	<b>CFIHP suffix:</b>	<b>LAC availability:</b> On-line FA; digital from reference archivist
<b>BAN:</b>	<b>CFIHP file name:</b> LAC FA 25-5 - DEA General, 1939-63	
<b>Subject matter:</b> “40 Series” comprises DEA Central Registry files Secret and below for the period 1939 to 1963. There are a small number of files dealing with intelligence subjects, but this file system does not cover the holdings of the DEA Departmental Top Secret registry or the DL(2) Special Registry.		
<b>FA description:</b> CFIHP database has a PDF copy of the 1451-page paper finding aid that lists all the files from the “40 Series” which are included in the LAC on-line finding aid. These files are contained in Vols. 2167-7899 and 7972-8562 (Vols. 7900-7971 are described in FA 25-65). See below for other segments of FA 25-5 that are not included in the on-line FA.		
<b>CFIHP Link:</b>		

<b>LAC FA:</b> 25-5	<b>CFIHP suffix:</b> (A)	<b>LAC availability:</b> Partial on-line FA; paper in reference room
<b>BAN:</b>	<b>CFIHP file name:</b> LAC FA 25-5 (A) - Intelligence, 1939-63 (Ext)	
<b>Subject matter:</b> This is an alphabetical subject index of the "40 Series" of files from the DEA Central Registry for the period 1939 to 1963. It lists file title and number, but not the volume number.		
<b>FA description:</b> CFIHP database has a PDF copy of 11 pages from FA 25-5 KWOC Index Part 6 - HUS to LIE covering "intelligence," "JIC" and "joint." The files other than those from the "50,000 Series" (See below) are included in the LAC on-line FA and in FA 25-5. The files from the 50028 and 50029 block listed in this index are not included in the LAC on-line FA, but they are listed in FA 25-65 (with volume number).		
<b>LAC descriptive summary:</b> The [paper] finding aid for this series is in two parts. Part 1 is a KWOC—Key Word Out of Context—printout organized by subject. The researcher must look up the subject in which one is interested and will then find the file titles and file numbers relating to that subject. The researcher must then go to Part 2 of the finding aid which is a MINISIS printout organized by file number. Using the file number found in part 1 of the finding aid, the researcher will then look for that file number in part 2 and subsequently find the reference. 25-5 (Electronic) Volumes 6153-6165 (finding aid 25-5, part 23) is a thirteen part alphabetically arranged subject index called the "KWOC.". This finding aid was created by DEA in the mid 1960's, soon after the registry system - the "40 series" - was closed. Some records created by the department were destroyed before being transferred to LAC. Therefore, in some cases, the only proof of a departmental activity is the title and the date of the file in this finding aid.
